January 21, 2021

Dear Parents/Guardians,

On January 21 a case of COVID-19 was diagnosed in an individual from F.P. Walshe School. We are working closely with Alberta Health Services to ensure necessary measures are in place to protect all students. Alberta Health Services will be contacting parents/guardians of students, as well as any staff/visitors/volunteers who may have been in close contact with the case. In this case, very few individuals in the school were identified as close contacts and the positive case is not the result of in school transmission.

We remind parents/guardians of students, as well as any staff/visitors/volunteers to monitor for any signs or symptoms of COVID-19. The Alberta Health daily checklist can be found [here](#). Please remember to complete the checklist each day prior to attending school.

As a reminder, if you/your child has any of the symptoms of illness listed on the Alberta Health daily checklist, please fill out the online Alberta Health Services COVID-19 self-assessment or call Health Link at 811 and stay home/keep your child at home. During this period, our school remains open and learning continues. While those isolating at home will be learning virtually, the rest of the staff and students are having in-person classes as usual. We will continue to provide additional information to parents / guardians as it is available.

Sincerely,

Chad Jensen

Principal
